

NEW MELODY KAPENA

Key of A

A *Bm* *E*
Radio waves are crashing in my mind
A *G* *Em*
Through the static I search to find
A *E*
A lovely sound that I can call mine
A
Not for a day but till the end of time
A *Bm* *E*
Her symphony is soft and sweet
A *G* *Em*
Her drum and bass is holding down the beat
A *E*
And her hook has got me on repeat
A
Guaranteed to get you off your seat and on your feet

A *Bm* *E* *A* *G* *Em* *A*
I love you girl you've changed my world
E *A*
With this new melody you have shown me
A *Bm* *E* *A* *G* *Em* *A* *E* *A*
I never knew a tune so true or as sweet as you

She's a lover and she's a friend
Her mix it is a perfect blend
You'll have to play her through right till the end
And when she's done you'll have to play her again
She's so nice you gotta do it twice
Wheel it! Reload! On her all night
Cause we be jamming 'til the morning light
And if you find the one you like you better treat her right

F *C* *D*
Ooh, you're more than a galaxy of frequencies to me
F *C* *D*
Until I hear your voice I'll never be free
F *C* *D*
The stars align for you in perfect harmony
F *E*
