JAI THE BAND BIOGRAPHY

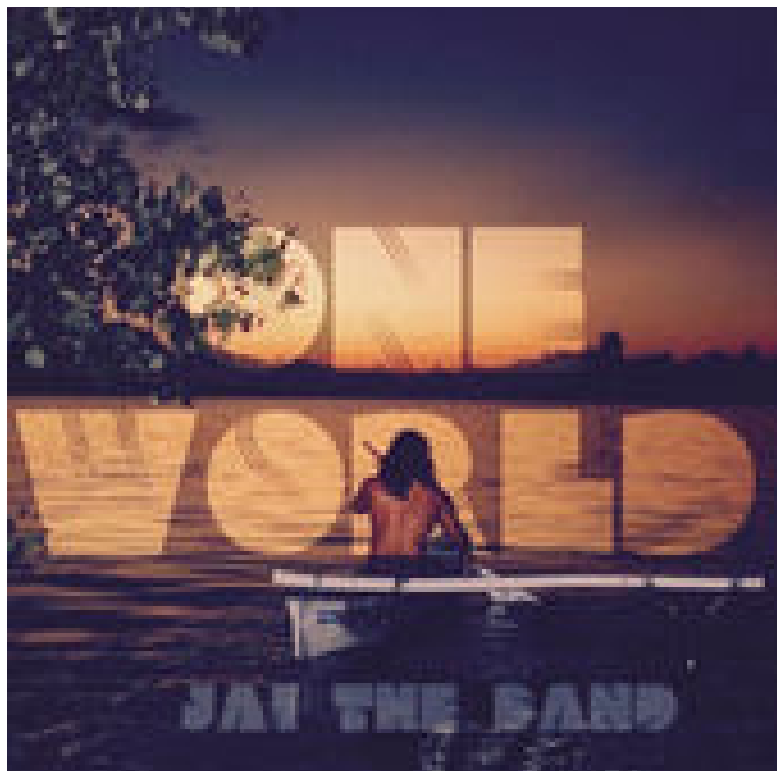

Bio:

Formed in 2012, Jai the Band is fusing music textures with the strongest roots rock reggae sound, successfully creating a highly energetic classic island vibe. Their enthusiasm to experiment with all forms of reggae, electronic ambient sounds, and pop culture, is clearly delivering their vision of “very passionate rhythmic music” that really makes people move. As a result, JAI has hit hard in the island music scene with brothers Jai Rodgers (Guitar, Vocals) and Daniel Rodgers (Drums, Vocals), Their live shows create a super high energy environment, composed of transient dubs, hooky drops with a pop anthem influence, all driven by a powerful beat that leaves crowds remembering where they’ve been. With their sweet blend of harmonious vocals from all four members and the solid pulse of reggae rhythms, JAI’s live shows are simply an experience not to be missed.

Members:

1. Jai Rodgers // Vocals and Guitar
2. Daniel Rodgers // Vocals and Drums
3. Blake McMillen // Vocal and Bass
